ABOUT ME

Business Analyst with experience in data-driven decision-making, process improvement, operational performance analysis, and stakeholder collaboration across travel, healthcare, and energy environment. Skilled in analyzing business and operational data, developing KPI dashboards and management reports, identifying optimization opportunities, and translating insights into actionable recommendations. Hands-on experience with Excel, Power BI, and HubSpot CRM, supported by studies in Business Administration and Data Analysis. Strong interest in sales, enterprise transformation, continuous improvement, and AI-enabled business transformation.

EXPERIENCE

Business Analyst

May 2025 – Present

Bellarome Travel Worldwide, Rome, Italy

- Analyze sales, customer, supplier, and operational data using Excel and HubSpot CRM to identify performance trends, seasonal demand, and opportunities for business improvement.
- Develop and maintain KPI dashboards and management reports to support performance monitoring, operational decision-making, and service delivery improvements.
- Analyze supplier costs and margins and identify optimization opportunities that contributed to a 10% increase in profitability.
- Assess route performance and recommend strategic adjustments for underperforming services, supporting portfolio and operational efficiency.
- Monitor customer feedback and review trends to identify service improvement opportunities and support customer experience decisions.

Data Analyst (Remote)

Apr 2024 – Feb 2025

King Street Medical Centre, Bowmanville, Ontario, Canada

- Collected, processed, and analyzed healthcare and operational data to generate insights supporting strategic and operational decision-making.
- Designed and maintained Power BI and Excel dashboards and KPI reports, translating complex data into clear performance insights for stakeholders.
- Collaborated with stakeholders to identify data-driven solutions for workflow optimization, service delivery improvement, resource allocation, and clinic performance.
- Performed data cleaning, validation, and transformation to improve reporting accuracy and reliability.
- Presented actionable recommendations through data visualizations and reports to support operational and patient-service improvements.

Research Intern

Apr 2023 – Jul 2024

Zenit Energia, Rome, Italy

- Analyzed renewable energy markets, costs, pricing, and technology trends, improving strategic assessment by 25%.
- Evaluated economic and environmental factors affecting renewable energy adoption and investment feasibility.
- Developed forecasts and forward-looking insights to support strategic decision-making on the future energy landscape.
